A Mathematician Reads the Newspaper eBook: Paulos, John ...

Adopt a thoughtful and skeptical approach to reading the news. While mathematicians may fail to see the forest for the trees, journalists often exaggerate or leave out important details through misunderstanding math, statistics or science or in attempting to make a story compelling. When you read the news, think critically and stay alert for biases.

A Mathematician Reads the Newspaper By John Allen Paulos ...

Paulos begins by letting us know that he has read the newspaper almost daily since the late 1940s. Somewhere along the way he picked up a Ph.D. in mathematics, and began reading with the critical eye of a mathematician. He turns his quirky observations into stories, and he is an engaging storyteller.

[(A Mathematician Reads the Newspaper)] [by: John Allen ...

A MATHEMATICIAN READS THE NEWSPAPER super majorities, and so-called Borda counts, whereby voters rank the candidates and award progressively more points to those higher in their rankings. (Proponents of change sometimes tendentiously frame the issue by saying that 51 percent of the vote results in 100 percent of the power.

A Mathematician Reads The Newspaper

From crime figures to health scares, election polls to stock market forecasts, numbers make the news all the time. But are they accurate? John Allen Paulos, travels through the pages of an average newspaper, revealing how mathematics is at the heart of the articles we read everyday - even horoscopes and the sports pages - and how often they mislead us.
