Head First Ser.: Head First Algebra by Dan Pilone and ...

At first it hurt my head to think about it, but then I slowly started t realize that math is so much more complex than even the pythagorean theorem. Some numbers are imaginary, there isn't an answer to every problem, numbers don't stop.

What Memorable Experiences Have You Had in Learning ...

The very first thing you'll have to master in algebra is the concept of a variable. Variables are letters that serve as placeholders for numbers whose value you don't know. So for example, in the equation 1 + 2 = x, the x is a placeholder for the 3 that should occupy the other side of the equation.
