How America Lost Its Secrets: Edward Snowden, the Man and ...

In the wake of his 2013 NSA leak, public opinion has been divided over the former IT analyst. In *How America Lost Its Secrets*, Edward Jay Epstein draws on his extensive journalistic experience and investigative acumen to investigate the Snowden scandal—why, and how, it happened, and what the implications will be. This is a crucial book for anyone hoping to understand national security in the digital age, and what Snowden's revelations mean for America (and Putin's Russia).

How America Lost Its Secrets by Edward Jay Epstein ...

In "How America Lost Its Secrets," author Edward Jay Epstein dives deeply into the circumstances of the Edward Snowden affair and provides the necessary details for anyone to walk away with a better understanding of what is being called the most devastating blow to U.S. Intelligence since the creation of our modern-day security apparatus.

Book Review: How America Lost Its Secrets

In *How America Lost Its Secrets*, legendary investigative journalist Edward Epstein carefully examines how America's secrets were taken, as well as the man who took them. He persuasively argues that by outsourcing parts of its security apparatus, the U.S. government has made classified information needlessly vulnerable; he documents how Snowden sought employment precisely where he could most easily gain access to such information; and he explains how Snowden is now treated as a prized ...

Challenges the popular image of Edward Snowden as hacker turned avenging angel, while revealing how vulnerable the United States' national security systems have become.

Challenges the popular image of Edward Snowden as hacker turned avenging angel, while revealing how vulnerable the United States' national security systems have become.

A groundbreaking exposé that convincingly challenges the popular image of Edward Snowden as hacker turned avenging angel, while revealing how vulnerable our national security systems have become--as exciting as any political thriller, and far more important. After details of American government surveillance were published in 2013, Edward Snowden, formerly a subcontracted IT analyst for the NSA, became the center of an international controversy: Was he a hero, traitor, whistle-blower, spy? Was his theft legitimized by the nature of the information he exposed? When is it necessary for governmental transparency to give way to subterfuge? Edward Jay Epstein brings a lifetime of journalistic and investigative acumen to bear on these and other questions, delving into both how our secrets were taken and the man who took them. He makes clear that by outsourcing parts of our security apparatus, the government has made classified information far more vulnerable; how Snowden sought employment precisely where he could most easily gain access to the most sensitive classified material; and how, though he claims to have acted to serve his country, Snowden is treated as a prized intelligence asset in Moscow, his new home.

"Edward Snowden touched off a global debate in 2013 when he gave Barton Gellman, Laura Poitras, and Glenn Greenwald each a vast and explosive archive of highly classified files revealing the extent of the American government's access to our every communication. They shared the Pulitzer Prize that year for public service ... Gellman ... jumped off from what Snowden gave him to track the reach and methodology of the U.S. surveillance state and bring it to light ... Along the way, he interrogated Snowden's own history and found important ways in which myth and reality do not line up. Gellman treats Snowden with respect, but this is no hagiographic

account"--Dust jacket flap.

In this compelling sequel to *Power Quest Book One: America's Obsession with the Paranormal*, S. Douglas Woodward reveals the hidden history of Nazi infestation of American institutions after World War II. Beginning with the 1952 flying saucer flap over the nations capital and concluding with the CIA's clandestine mind control agenda of the 1950s-1970s, the reader is confronted with highly charged and seldom known facts. The story centers on America's erstwhile alliance with German fascism linked to the infamous personalities of Hitler's Nazi Party who escaped the war crimes trials at Nuremberg. In this second volume of *Power Quest, The Ascendancy of Antichrist in America*, Woodward brings to the reader the recently declassified proof our America has often shunned its most noble ideals. The author uncovers a vast record of unethical and deceptive Federal activities committed in Washington's darkened corridors of political power. Woodward condenses mountains of highly reliable research compiled by authoritative investigative journalists and insiders along with his own well-turned analysis, demonstrating that the political and spiritual evil of Nazism was often excused and encouraged by American officials as part of a blind quest to fight communism during the Cold War. Woodward makes no secret of his evangelical perspective. But *Power Quest: The Ascendancy of Antichrist in America* is not a selective proof texting of biblical assertions or a diatribe against liberal political views. His account is a factual his-tory that most Americans have never heard. For conservative Christian readers, Woodward speaks prophetically - challenging the cherished assumption held by political conservatives that America traditionally takes the moral high ground. And he poses an alternative view to the typical eschatological position, asking "Could America be the seat of power for a literal personage the Bible calls Antichrist?"

The National Security Agency is the world's most powerful, most far-reaching espionage. Now with a new afterword describing the security lapses that preceded the attacks of September 11, 2001, *Body of Secrets* takes us to the inner sanctum of America's spy world. In the follow-up to his bestselling *Puzzle Palace*, James Banford reveals the NSA's hidden role in the most volatile world events of the past, and its desperate scramble to meet the frightening challenges of today and tomorrow. Here is a scrupulously documented account--much of which is based on unprecedented access to previously undisclosed documents--of the agency's tireless hunt for intelligence on enemies and allies alike. *Body of secrets* is a riveting analysis of this most clandestine of agencies, a major work of history and investigative journalism. A New York Times Notable Book

The Truth Behind the Stories They Don't Want You to Know America's Secret History presents an undistorted picture of the history of the

United States. Never in one volume have so many unknown facts that disprove America's history books been brought together in a cohesive historical context, all based on verifiable information. Utilizing the House of Representative's little-known 1953 Reece Committee revelations, the Carnegie, Rockefeller, Guggenheim, and Ford foundations have systematically controlled education and the high-level appointees to the US State Department for the last century with the full knowledge and approval of the United States government. Conclusive proof that there has been one attempted coup d'état, and three successful peaceful coups in America's history, and that all were obvious Deep State initiatives to mold the government into its intended purposes. Twenty-six people owned the same wealth as the poorest 50 percent of the world (almost four billion people in 2020). America's Secret History shows how the Deep State, the Fed, and world governments caused this to happen. Not another conspiracy theory book, America's Secret History reveals The Truth Behind the Stories They Don't Want You to Know, weaving all of them together to explain just how we find ourselves in Donald Trump's America.

Reveals how the Federal Reserve under Paul Volcker engineered changes in America's economy

The NSA's extensive surveillance program has riveted America as the public questions the threats to their privacy. As reported by The Washington Post, in their Pulitzer Prize-winning coverage of whistleblower Edward Snowden's NSA leaks, NSA SECRETS delves into the shadowy world of information gathering, exposing how data about you is being gathered every day. From his earliest encrypted exchanges with reporters, Edward Snowden knew he was a man in danger. Sitting on a mountain of incriminating evidence about the NSA surveillance programs, Snowden was prepared to risk his freedom, and his very life, to let the world know about the perceived overreach of the NSA and the massive collection of personal information that was carried out in the name of national security by the U.S. government. The Washington Post's complete coverage of the NSA spying scandal, which it helped break, is now collected in one place to give as comprehensive a view of the story as is known. From the first contact with Snowden to the latest revelations in worldwide cellphone tracking, the award-winning reporters at the Post have vigorously reported on the scope of the NSA's surveillance. Snowden called the internet "a TV that watches you," and accused the government of "abusing [it] in secret to extend their powers beyond what is necessary and appropriate." Here, the secrets are revealed of those who tried in vain to remain in the shadows.
