IMPRESSIVE STONE CARVING IN ANCIENT HINDU TEMPLE || HALEBIDU ~~Indian Temple Sculpture~~  
Indian temple sculpture can be divided into two types: the Nagara (North India) and the Dravidian (South India). The primary difference between the two is the way in which the shikharas of the temples are carved out.

~~Indian Temple Sculptures - IndiaNetzone.com~~  
The Mandir had to conform to India's ancient architectural texts, the Vastu Shastras, and yet also meet the requirements of Britain's stringent building code. For further insights on how to satisfy both, members of the project team embarked on an 18-day study tour of Swaminarayan mandirs and other traditional Hindu temples in India in late 1991.

The Sculpture in the Indian subcontinent, partly because of the climate of the Indian subcontinent making the long-term survival of organic materials difficult, essentially consist of sculpture of stone, metal or terracotta.

~~Sculpture in the Indian subcontinent — Wikipedia~~

Hindu temple sculptures are not mere adornment, they are fundamentally important to the temple's form and meaning. They frequently have an organic presence, emerging in recesses and chambers from the body of the temple itself.

The Nagara or North Indian Temple  
Architecture Nagara is the style of temple  
architecture which became popular in Northern  
India. It is common here to build an entire  
temple on a stone platform with steps leading  
up to it. Unlike in south India, it doesn't  
usually have elaborate boundary walls or  
gateways.

This innovative book is themed around Indian temple arts as instruments of worship - devotional sculptures which embody, through the combined authority of the aesthetic and the symbolic, powerful religious experiences. It examines Indian religious sculpture in the temple context - its cosmological meaning, its function within the architectural schema and its dynamic interactive role in worship. Accessible and multidisciplinary in its approach, Indian Temple Sculpture reveals the vivid traditions still in practice today, and opens up a world of understanding about Indian devotional art.

This beautiful reprint illustrates the V&A's unrivalled collection of South Asian sculpture, putting ?Indian temple Sculpture? in its context as an instrument of worship intended to embody powerful religious experience. Author John Guy considers the origin, cosmological meaning and role of sculpture within the temple setting, and reveals the vivid rituals and traditions still in practice today. The book is also an absorbing introduction to the principal

iconographic forms in the three traditional religions of the Indian subcontinent, Hinduism, Jainism and Buddhism, with the principal deities presented through their myths and manifestations. John Guy is Senior Curator of South and South-East Art in the Asian Department of the V&A.0.

Some sculptures adorning the outer walls of the temples of medieval period of India depict bold themes of love, and is presented along with figures of deities or puranic episodes. This set of love sculptures has evoked curiosity in many researchers of art and philosophy as to why pairing or Mithuna sculptures were part of temple architecture. This well illustrated research work explores the intentions of such sculptural representations and derives how the highly abstract, philosophical and universal topic of taming the mind through Raja yoga and forms of Tantra yoga has been translated into the very attractive figurative form and presented in temples to give information about the various forms of yogic principles that guide towards the attainment of bliss.

Madhya Pradesh, Khajuraho is renowned as much for the elegance of its architecture as for the sensuality of its sculpture. Khajuraho has become one of the unmissable sights for any traveler to India, and owes its international reputation to the lavishness of its numerous Hindu shrines. Formerly an important political and religious center, it is thought to have contained up to ninety-five temples, as the many ruins concealed under otherwise-anonymous hillocks scattered throughout the valley attest. Only twenty-five survive. The earliest mention of Khajuraho dates from the seventh century. After the collapse of the Candella kingdom, the site experienced almost four centuries of oblivion, and the once proud city-state turned into a sleepy village nestling in what had become an arid basin for several months of the year. British hunters rediscovered it quite by chance at the beginning of the nineteenth century. Since then, the area has undergone several phases of restoration, as befits one of the leading sites of the world's cultural heritage. The highly unusual nature of its temple depictions has given this area a somewhat 'scandalous' reputation, unleashing, over the years, interpretations of all kinds.
