AllMusic Review by Stephen Thomas Erlewine. Having gotten the weirdness of Southern Tracks & Fantasies out of his system, Paul Davis settled into a soft rock groove for 1977's Singer of Songs - Teller of Tales. Some of these songs and tales are old ones for Davis, who chose to revive "Hallelujah Thank You Jesus," "You're Not Just a Rose," and "Editorial" for this record, giving each a mellower treatment, which is kind of the point of this: it's smooth and soft, the opposite ...

Winner of the 1999 Edgar Award for Best Biographical Work, this is "an excellent biography of the man who created Sherlock Holmes" (David Walton, The New York Times Book Review) This fresh, compelling biography examines the extraordinary life and strange contrasts of Sir Arthur Conan Doyle, the struggling provincial doctor who became the most popular storyteller of his age. From his youthful exploits aboard a whaling ship to his often stormy friendships with such figures as Harry Houdini and George Bernard Shaw, Conan Doyle lived a life as gripping as one of his adventures. Exhaustively researched and elegantly written, Daniel Stashower's Teller of Tales sets aside many myths and misconceptions to present a vivid portrait of the man behind the legend of Baker Street, with a particular emphasis on the Psychic Crusade that dominated his final years--the work that Conan Doyle himself felt to be "the most important thing in the world."

"WOW! I wish I could dream up a story this good!"-J.J. Sedelmaier, Animator (Beavis & Butthead, SNL's Ambiguously Gay Duo) "A wonderfully clever tale, well-told."-Jerry Cleaver, Author of Immediate Fiction. "The power of my fables is legendary-if I may be permitted to say so. They have reformed the criminal, healed the sick, and righted the mentally unbalanced. Why, just last year did I not bring the implacable Blackhouse Ripper to tears of repentance on the eve of his execution, so that he begged to be led to the gallows forthwith? I have fables for every occasion, and this is no exception, believe me." So boasts the Fabulist to the King of Uaxala, who has summoned him to that distant unknown land to improve the character of the Prince. But the Prince has stories of his own to tell, and the Fabulist and his Manservant are drawn into astonishing adventures, including (but not limited to): Cold-blooded revenge; an infinite labyrinth; startling philosophical speculations and disputes that actually move the plot forward; torture by unbearably exquisite caresses; death-duels aboard a pirate ship; an uncharted island inhabited solely by comely young women; gunpowder tattoos; gyascuti farsed with grebes farsed with capons farsed with wrens; imprisonment in a tower; The Excursus of Hermes Trismegistus, as well as the Chema of Chemes; polygamous marriage and jealous wives; potions of invisibility and immobility; a barber of blood. The Tale of the Teller of Tales is a novel of high adventure, low comedy, and disturbing metaphysical insights.

New renditions of six classic fairy tales.

Civil-servant-turned-schoolteacher Arunava Varman is secretive and reticent. But he turns into an inspired teller of tales after a couple of drinks, especially in the company of his friend, Tapan. Arunava's bizarre stories-involving friends, family and colleagues-add a dash of excitement to Tapan's mundane life of a bureaucrat. But over the years, as Tapan gets to know Arunava better, he starts discovering disturbing holes in these tales. Elegant, wistful and full of surprises, this exquisitely crafted first novel combines the suspense of a thriller with the tender charm of a love story.

After his unfortunate clothing story, the Emperor's elderly reporter is ordered to write fairy tales, and with the help of a reluctant streetwise girl, comes up with a whole new slant on the old classics

This book offers new, often unexpected, but always intriguing portraits of the writers of classic fairy tales. For years these authors, who wrote from the sixteenth to the nineteenth centuries, have been either little known or known through skewed, frequently sentimentalized biographical information. Jacob and Wilhelm Grimm were cast as exemplars of national virtues; Hans Christian Andersen's life became-with his participation-a fairy tale in itself. Jeanne-Marie Leprince de Beaumont, the prim governess who wrote moral tales for girls, had a more colorful past than her readers would have imagined, and few people knew that nineteen-year-old Marie-Catherine d'Aulnoy conspired to kill her much-older husband. Important figures about whom little is known, such as Giovan Francesco Straparola and Giambattista Basile, are rendered more completely than ever before. Uncovering what was obscured for years and with newly discovered evidence, contributors to this fascinating and much-needed volume provide a historical context for Europe's fairy tales.

"The Book of Stories for the Story-teller" by Fanny E. Coe. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten?or yet undiscovered gems?of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

In a time of drought in the Kingdom of Morocco, a storyteller and a boy weave a tale to thwart a Djinn and his sandstorm from destroying their city.

"All my work fits in my mouth," Jo Carson says. "I write performance material no matter what else the pieces get called, and whether they are for my voice or other characters' voices . . . they are first to be spoken aloud." Following an oral tradition that has strong roots in her native Tennessee, the author of Teller Tales invites the reader to participate in events in a way that no conventional history book can. Both stories in this book are set in East Tennessee in the mid-eighteenth century and share certain characters. The first narrative, "What Sweet Lips Can Do," recounts the story of the Overmountain Men and the battle of King's Mountain, a tide-turning battle in the American Revolution. "Men of Their Time" is an exploration of white-Cherokee relationships from early contact through the time of the Revolution. Although not well known to the outside world, the stories recounted in Teller Tales are cornerstones in the heritage of the Appalachian region and of American history. In ways that will appeal to young and old alike, Jo Carson's irreverent telling will broaden the audience and the understanding for the stories of native Americans, settlers, explorers, and revolutionaries of early America.
